R&D

"Focused on the Future"

Contamac are considered to be **the** company that is researching and developing new products to support our customers and the specialist lens industry.

The Research and Development function is at the core of Contamac's activities. Like all forward thinking companies, we recognise the importance of significant investment in the development of new products, which ensures we are able to provide improved materials for both Contact Lenses and Intraocular Lenses. The significant and continued investment that has been undertaken in recent years is a reflection of the importance we place on the need to continually advance and adapt to changes in the needs of our customers.

Marketing and Professional Services

"Share our Vision"

www.contamac.com provides the flair and imagination for the company's marketing and professional services support to the industry. Contamac provide the most comprehensive and business focused packages to our customers. Our marketing and professional services expertise has at its heart the needs of our customers and your customers.

Marketing tools such as:

- Newsletters
- Case studies
- Promotional materials
- Product brochures
- Clinically led presentations are all available as support for your business and products

What does the future hold for Contamac?

- To continue to build on the >22% growth per annum over last three years
- A commitment to R&D in growing market segments through continued reinvestment of profits into the business and industry
- To ensure our customers receive the benefit of the company's £1.0 million upgrade in manufacturing facility
- To continue to focus on supporting the Speciality Contact Lens and Intra Ocular Lens markets
- To continue to strengthen the core team in support of materials development and supply to the industry

So what makes Contamac different from the competition?

- Our clear commitment to support the Speciality Contact Lens and Intra Ocular Lens manufacturers

Contamac does not compete with our customers

- We don't manufacture and sell speciality lenses
- We don't manufacture and sell disposable lenses

Contamac has no requirement to raise prices to:

- Support loan repayments
- Maintain revenues in a declining market
- Support activities that compete with our customers

Why partner with Contamac?

Price: We do our best to give you the very best value for money.

Quality Accredited: ISO9000/2000 and EN13485.
